

ASPHALT REMOVER - LIQUID

GENERAL DESCRIPTION

100% active product for removal of heavy buildup on asphalt vehicles. Removes asphalt, tar, hardened grease, grime and oils. Also suitable for use on machinery, tools, automotive parts, and engines. Water thin product.

AREAS OF APPLICATION

Removes heavy buildups on asphalt vehicles as well as tar, hardened grease, grime and oils.

ROAD & ROOF REPAIR EQUIPMENT - superb for removal of oil, tar or asphalt from vehicles, tanks and equipment.

GENERAL DEGREASING & CLEANING - excellent on machinery, gears, pumps, filters, bearings, parts, fuel oil systems, garbage handling equipment and containers, concrete and masonry surfaces, as well as automotive engines and equipment. Also highly effective for removal of grime, ink, oil, grease, fats, adhesives, putty, wax, rubber marks and other soils.

SPECIAL FEATURES

Naturally Based And Biodegradable - "NATURES" alternative to chlorinated solvents, petroleum distillates and caustics.

Highly Effective - powerful ready to use product formulated for the removal of asphalt, tar, hardened grease, grime and oils.

Easy To Use - liquid product for application from a pump up sprayer or hand sprayer.

Safe On Equipment - may be safely used on asphalt pavers, machinery, tools, engines. Safe for use on all soft metals.

Multi-Use - ideal for use as a heavy duty floor/concrete cleaner for removing asphalt, heavy grease or oil and a wide range of other applications.

Free Rinsing - freely rinses with water.

USE DIRECTIONS

Dilution: Use in undiluted form.

Cleaning Asphalt Pavers, Equipment, Tools :
Apply RTU product with a pump up sprayer or hand sprayer.

Allow a minimum 15 minute contact time, longer for heavier asphalt build-ups.

Do not allow surface to dry.

Scrub, scrape or wipe as necessary.

Rinse with water.

PHYSICAL PROPERTIES - LIQUID

ASPHALT REMOVER - LIQUID consists of penetrants, surfactants and high quality citrus terpenes.

Type	Asphalt Remover
Appearance	Clear Colourless Liquid
Odour	Orange Citrus
Viscosity (cps)	<25
pH (concentrate)	N/A
Flammability	Combustible
Flash Point	70°C/158°F
Specific Gravity	0.88
Solubility in Water	Semi-Miscible
Toxicity (concentrate)	Serious Eye Irritant
Skin Irritant/Sensitizer; Avoid Inhalation/Ingestion	

**FOR USE IN
INDUSTRIAL, INSTITUTIONAL,
COMMERCIAL and MARINE ENVIRONMENTS**

PACKAGING

210 L Drum; 20 L Pail; Case (4x4L)
